

A broad-spectrum fast acting insecticide. For the control of flying pests of Public Health Importance, including Anopheline and Culicine mosquitoes, sandflies, houseflies or other biting flies and midges. Cytrol 10/4 ULV can also be used for the control of cockroaches in drainage systems. Contains 100g/litre of the synthetic pyrethroid cypermethrin, and 40g/litre of the pyrethroid synergist piperonyl butoxide, formulated as a concentrated product for cold aerosol ULV and thermal fogging.

APPLICATION GUIDELINES

Cytrol 10/4 ULV is an EC/UL solvent-based liquid that can be mixed with water, kerosene or diesel oil for application via thermal fogging (hot) or (cold) aerosol ULV application equipment. Cytrol 10/4 ULV produces an ideal droplet spectrum for the control of flying insects. Oil-based aerosol clouds are capable of drifting considerable distances if applied with due regard to the prevailing wind. Whilst this feature greatly extends the area subject to control, it may also pose a hazard to aquatic life if the spray drifts over water. Water-based sprays are more economic but are subject to droplet size reduction due to carrier evaporation. Water-based cold aerosol ULV's are inclined to irritate lung tissue and care should be taken when applying this product in inhabited places.

DO NOT APPLY WATER-BASED SPRAYS OF CYTROL 10/4 ULV NEAR OR AROUND HUMANS OR DOMESTIC ANIMALS OR WHERE THE SPRAY CLOUDS

USE OR TARGET	DILUENT	DILUTION	APPLICATION RATE
Thermal Fog Vehicle mounted	Kerosene, diesel	1+100	Apply 5 litres / hectare For Mosquitoes, Sand-flies, Midges, Houseflies and drainage systems (apply as required)
Thermal Fog Hand held	Kerosene, diesel	1+40	Apply 2 litres / hectare For Mosquitoes, Sand-flies, Midges, Houseflies and drainage systems (apply as required)
Cold Aerosol ULV (Ground operations, either hand held or vehicle mounted)	Kerosene, diesel OR water	1+11	Apply 0.5 litres / hectare For Mosquitoes, Sand-flies, Midges, Houseflies and drainage systems (apply as required)
Cold Aerosol ULV (Aerial operations)	Use undiluted	Use undiluted	Apply 0.1 litres / hectare For Mosquitoes, Sand-flies, Midges, Houseflies and drainage systems

Maximum Dose, 330 ml per hectare. WEAR SUITABLE PROTECTIVE CLOTHING (COVERALLS) AND SYNTHETIC RUBBER/PVC GLOVES when using. AVOID EXCESSIVE CONTAMINATION OF COVERALLS AND LAUNDER REGULARLY. DO NOT BREATHE THE SPRAY MIST. USE A FACE MASK IF NECESSARY with A2P3 filters. WHEN USING DO NOT EAT, DRINK OR SMOKE. COVER FOOD. FOOD PREPARATION EQUIPMENT AND EATING UTENSILS before application. DO NOT APPLY TO SURFACES on which food is stored. COVER WATER STORAGE TANKS before application. THIS MATERIAL AND ITS CONTAINER must be disposed of in a safe way. UNPROTECTED PERSONS AND ANIMALS SHOULD BE KEPT AWAY FROM THE TREATED AREAS UNTIL SURFACES ARE DRY. DO NOT APPLY DIRECTLY TO ANIMALS. DANGEROUS TO FISH AND OTHER AQUATIC LIFE. REMOVE OR COVER FISH TANKS AND BOWLS before application. DO NOT CONTAMINATE watercourses or ground. DO NOT APPLY IN OR AROUND DRAINS. DANGEROUS TO BEES.

PRECAUTIONS:

Do not breathe vapour/ spray. Wash contaminated skin thoroughly after handling. Wear protective gloves/ protective clothing/ eye protection/ face protection. Do not eat, drink or smoke when using this product. Keep/Store away from food, drink and animal feeding stuffs. IF SWALLOWED. Rinse mouth. Do NOT induce vomiting. IF INHALED. Remove person to fresh air and keep comfortable for breathing. IF IN EYES. Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists. Get medical advice/ attention. Take off contaminated clothing and wash it before reuse. Store locked up. Dispose of contents/ container in accordance with national regulations.

DANGER. May be fatal if swallowed and enters airways. Causes serious eye damage. May cause drowsiness or dizziness. May cause damage to organs through prolonged or repeated exposure. Very toxic to aquatic life with long lasting effects.

INSECTICIDE

CYTROL 10/4 ULV

Broad spectrum, fast acting ULV and thermal fogging concentrate for the control of flying insects

CONTAINS
CYPERMETHRIN 100G/L
PIPERONYL BUTOXIDE 40G/L

1 litre
